COUNTRY CLUB
TELECOMS

Why choose The Comms Guys?

Our easy to manage hosted country club PBX enables you to provide guests with a high-end service without the high-end cost. Empower your staff to efficiently manage guest requests, coordinate with internal employees and deliver accurate information across departments. Meanwhile, give guests the 5-star experience with an extensive array of features and seamless integration with management systems. Even better, these features come as standard so no costly add-ons or separate system to manage. Save on costs and system management, optimise staff communication, and ensure those positive reviews keep rolling in.

- Video Conferencing
- Auto-Attendant
- Call Queues
- Bespoke Voiceovers
- Personalised Hold Music
- CRM Integrations
- Plus a whole lot more!

Continuous investment and improvements in our products.

New features added quarterly so your organization is always on the forefront of capabilities.

Our clients see an average cost saving of **40%** when they upgrade to our services.

There are currently over 20,000 users connected to our hosted VoIP system globally!

Connectivity

Fiber makes everything, more everything...

From fiber to 5G to Leased Lines – the running of our operation depends on the very services we provide you to run yours. Trust us. If it works well for our business, it'll work great for yours.

Some of our partners:

openreach

TalkTalk  Gamma

colt  

G.Network
100% FIBRE CONNECTIVITY

To support a great VoIP service, you need a great internet service. We work with all major internet providers to deliver a seamless, end-to-end solution for all our clients. We pride ourselves on providing exceptional solutions fast, and work hard to ensure our clients always end up with their ideal setup in the shortest timeframe.

Fiber for business

Everything about us is fast...

From our customer service to our support, to our engineers to our reps, everyone at The Comms Guys has the same goal: To be good people who do even better work...

Universal WiFi

The Comms Guys partner with UniFi to deliver high-performance WiFi solutions to our country club clients. With a thoughtfully designed product family, our access points and networking equipment will fit into any country club looking to reap the rewards of high tech WiFi solutions

Login to your club WiFi once, across all your areas!

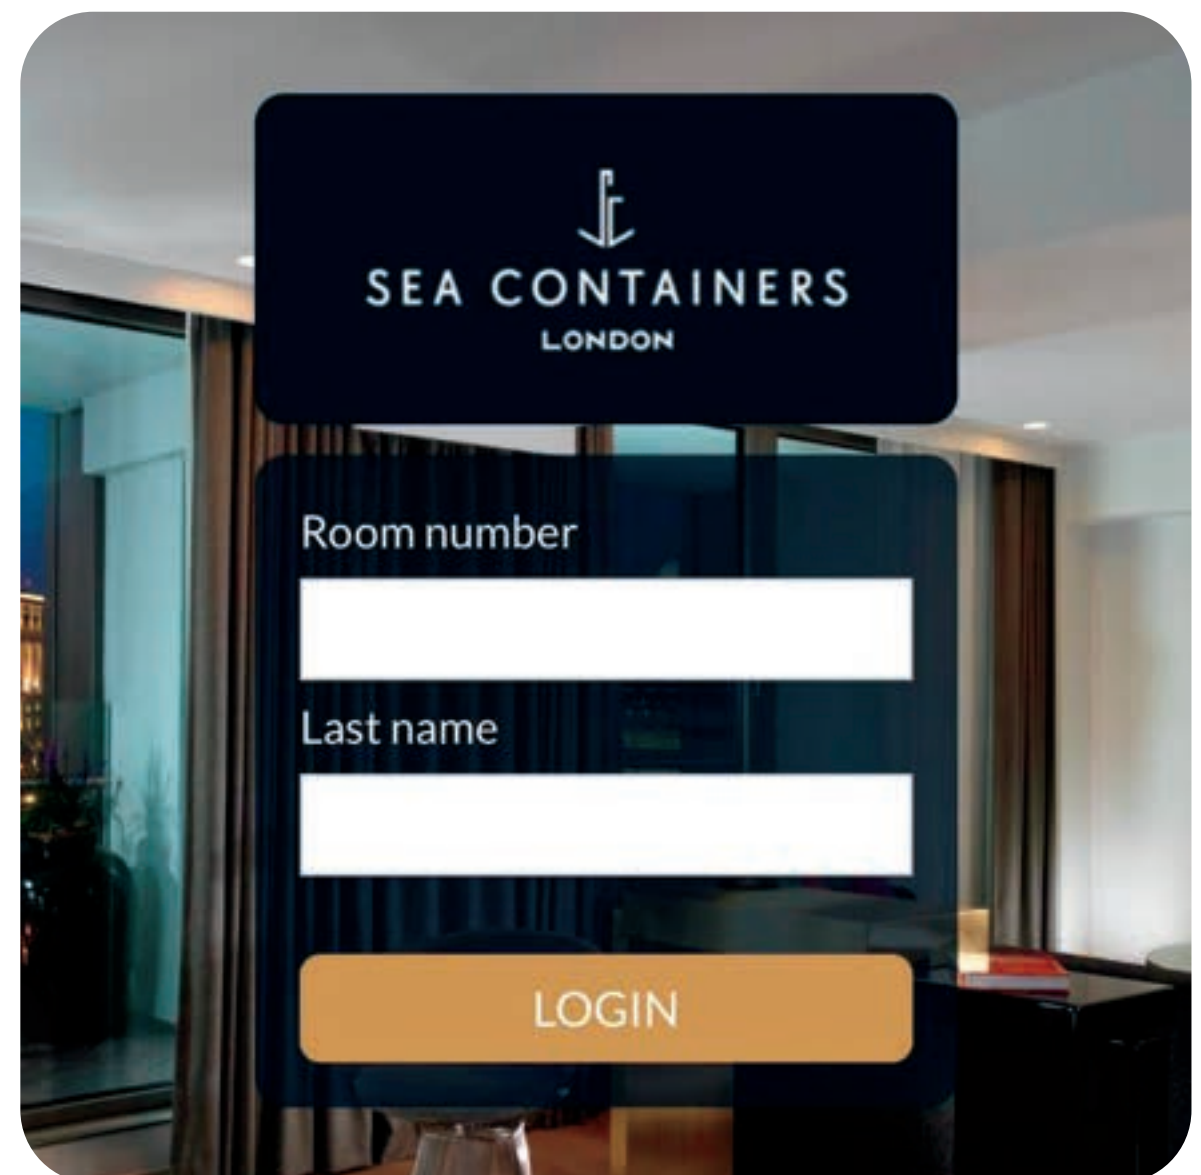

No matter how large or small your club is, with our intelligent WiFi solutions, your team and visitors only need to login once.

Each person logged into the system is recorded in a user database. This can be searched and accessed to show the connection history and details of users that have authenticated, showing when each user logged in and out.

Visitors can access your WiFi however you want them to...

Gathering visitor data is a key element in any club's marketing playbook. Your visitors can connect to your WiFi by registering with a number of customizable details such as email and social media. You can also increase revenue by offering speed-tier purchase options to your guests.

Mobile Service

Some of our partners:

Whether you're an Apple Aficionado or Samsung Super Fan, maybe a Huawei Hero or a Google God, we've got you covered. We partner with all major mobile networks in the UK and provide as much or as little data as your team needs. Globe trotter? No worries. Our data plans allow you to use your mobile anywhere in the world, so you can keep living your best life.

Power your business with the best networks in the UK!

The team at The Comms Guys are here to support your business with mobile plans that empower you to work from anywhere in the world. With 5G being rapidly deployed across the UK, your team can work faster than ever.

No Switch Stress

We've made switching easy...

We've made the switching experience seamless by delivering a consistent and predictable migration process that doesn't disrupt your business.

When your implementation is complete, your seamless customer care experience continues with our award-winning team of experts — Real people dedicated to your business.

Energy Savings

Our expert energy team at The Comms Guys are here to help you pay less for your club's gas and electricity. We compare over 25 suppliers and handle the switch over process, giving you a seamless transition.

Business Energy

The Comms Guys as a Supplier

In addition to providing communications solutions, The Comms Guys is a trusted broker of electricity, water and gas in the UK.

Our Process

Securing the best strategy for your electric, water or gas service is an important reason to work with us, but not the only one. Working with The Comms Guys, you are assured of a process that is transparent, rigorous and focused on your success.

Cost Analysis

We identify hidden fees, surcharges, taxes and line item fees that can turn a low-rate offer into unexpectedly high costs over time.

Supplier Review

We carefully match proven energy suppliers with your needs for billing, flexibility, geography and other factors.

Contract Negotiation

We perform all due diligence to meet your corporate needs, resolving contract uncertainties and potential risks before you sign.
